DH RED SOIL

The ultimate frame for downhill racing. Each frame is individually handcrafted from high quality "Columbus" cromoly tubing. The "DH Red Soil" is equipped with cantilever brake hoses on the rear, or is also available to accept "Formula" and "Magura" disc brakes.

Each frame set includes: an oil damping coil over "Kangaroo" shock DH F1, seat post, chain tensioner, A-headset.

Size mm	A	B	C	D	E	F	G	H	I	J
410	1075	410	432	70°	-	530	335	115	46	125
460	1094	460	440	70°	74°	535	345	115	46	125

TATANKA - spring oil

One of the stiffest downhill forks on the market. This fork features an ultra - stiff dual crown desing, a 20 mm axle and beefy hub. Inside this fork you will find a high quality, durable damper complet with speed sensitive coil springs for an extremely plush ride.

Travel: 150 mm / 5,9 inches

Function: coil spring & oil damper, regulation

Steerer tube: A-head 1 1/8"

Color: fire red / silver

Modifications: for cantilever brakes
disc brake Formula
disc brake Magura

TATANKA - spring MCU

Has a moto - style dual crown desing, very stiff 20 mm axle and special hub. This fork provides the stiffness needed by today standards.

Travel: 140 mm / 5,5 inches

Function: combination of coil spring & MCU, regulation

Steerer tube: A-head 1 1/8"

Color: fire red / silver

Modifications: for cantilever brakes
disc brake Formula
disc brake Magura

XC70

This is the new generation of oil damper Cross-country suspension forks. Those forks contain speed sensitive coil springs and an oil damper.

Travel : 70 mm / 2,75 inches

Function : coil spring & oil damper, fluent regulation

Steerer tubes : all interchangeable, A head 1", 11/8", 11/4",

Threaded 1" 11/8", 11/4"

Color : natural / orange / silver

XC 63

A very reliable and proven fork desing.

Function : combination of coil-spring & MCU,
fluent regulation

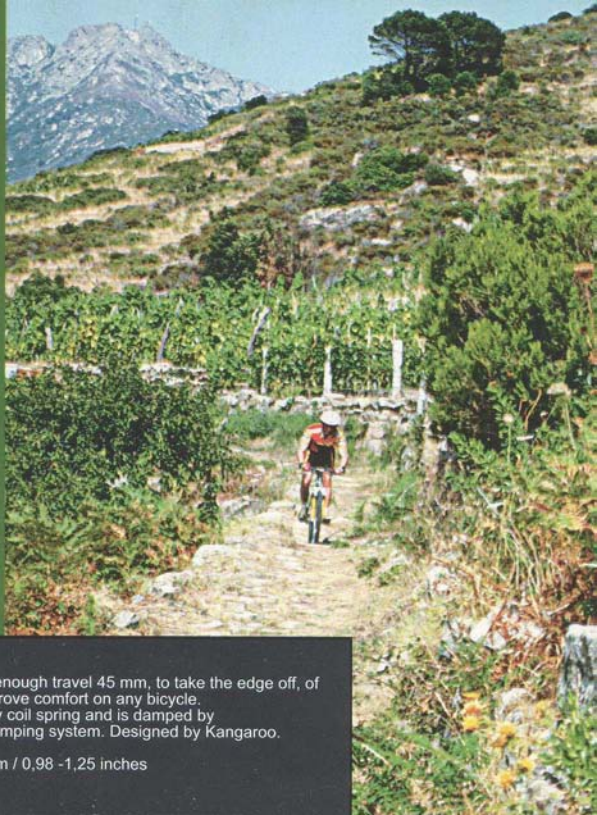

Steerer tubes: all interchangeable,

A head 1", 11/8", 11/4"

Threaded 1", 11/8", 11/4"

Color : honey yelow / silver

DAD 45

This suspension seat post has enough travel 45 mm, to take the edge off, of sharp bumps on trails, or to improve comfort on any bicycle.

This seat post is suspended bay coil spring and is damped by D.A.D.S. - dynamic adhesive damping system. Designed by Kangaroo.

Travel : 45 mm / 1,77 inches

Seat tube sizes : 25 mm - 32 mm / 0,98 -1,25 inches

Color : silver

20 RS

This suspension system is for use on recumbent bicycles.

Travel : 45 mm / 1,77 inches

Function : combination of coil spring & MCU, fluent regulation

Steerer tubes : all interchangeable, A head 1", 11/8"

Threaded 1", 11/8"

Color : black / silver

28 R plus

This suspension fork is for use on trekking and road bicycles.

With 28" wheels plus provides enough travel to smooth out even roughest city streets.

Travel : 45 mm / 1,77 inches

Function : combination of coil spring & MCU, fluent regulation

Steerer tubes : all interchangeable, A head 1", 11/8"

Threaded 1", 11/8"

Color : black / silver

Brake boosters in four colors: silver, black, red, yellow
100% CNC, Very light and stiff

DRESSING
hats, shorts,
shorts with long john,
racing Jersey, free style Jersey

SPECIAL PLASTIC GREASE

KANGAROO T for temperatures above +5 C (100 ml, 500 ml)

KANGAROO Z for temperatures below +5 C (100 ml, 500 ml)
